“ *Brandon was always such a fun person to be around. I remember as kids my cousin Matt would have him over and we'd all go to movies and ride around in his car for hours. Sad to hear he's passed, wish I'd stayed in touch with him... he was honestly one of the few friends I had growing up that felt like part of our family. I will miss him and I pray for his family, definitely a huge loss that will forever tear at my heart.*
