“ *My condolences to Donna Morrow's family. She was a very interesting lady... often reflected as a person who was very serious by nature. But, when she took time to talk, Donna was so fun to listen to.*

*Her favorite subjects were about Heather and her children. She loved you all so much. Time spent with this family brought Donna such happy memories. Ones to hold dear to her heart and cherish... and, perhaps, share with others.*

*Donna lived a long life. Bless her heart. She was part of a generation that believed in strong family values. Donna lived by rules of doing your best and doing it right... treating all with kindness and respect.*

*She will be missed.*

*Blessings and prayers,*

*Donna was a very, very dear friend who made everyone that she came in contact with feel blessed to be a part of her life. She possessed a wealth of knowledge and freely shared it along with her unique sense of humor. I will certainly miss speaking with her by phone and getting together with her and Lane for an occasional chit chat meal. May God bless the family and may you always enjoy sharing the many fond memories that Donna leaves with you.*
