I will always and forever be thankful for the kindness she always showed me when she would see me. I remember when her husband was alive and my mother used to go to Bingen to see them. They would all visit and laugh, talk about the Celilo days. They would load up my mom's trunk with salmon. When I would see her she would always ask me are you going fishing or digging this year? My prayers are with you Janice, Fred, Stephen and Marlene. I know she is dancing in heaven now. Atowishamash.

“ *My Parents Alivin and Mary Goudy-Settler fished side by side at Bingen and Hood River on the Columbia River with the George families: Levi, Josephine, Mable and Victor. The George families became our additional Parents. My Mother and Josephine and Mable all openly giggled when they told their Chemewa School Day's stories and secrets. We can all remember how their eyes sparkled and their hearts smiled when my Parents and the George Families gathered together. We got to share in all the laughter and sorrows with all the fishing families along the stretch of the Columbia River.*
