I remember when she got with Keith...I tried to put his best foot forward on it impressing The lovely lady ... she was popular in them days gone by....use ask me what I thought of her going out with guy like him!!! That's wen we got to b friends in school... He mentioned how he ended up in white Swan...I didn't know how to respond to his inquisitions on whether he'd had a chance with her if she knew why was sent to white Swan..... I just told him that he wudnt know until he asked her out..... wat a guy,, later his, brother ken, started visiting him

Babe's mom passed away when she was born. When Great grandpa Paul Hoptowit was bedridden he was moved to the West Wapato Ranch, and Babe had to drop out of school to help family care for him. But she did go back and got her high school certification. Rest your 3 quarter century body, your with all your loved ones :)
